Keys Description

Order Attributes:

Attributes	Version 3.1	Version 3.2
order_no	String	String
company_api_key	String	String
location_api_key	String	String
location_name	String	String
customer_id	String	Integer
customer_name	String	String
customer_telephone	String	String
total_amount	String	Float
notes	String	String

created_at	String	String
updated_at	String	String
delivered_at	String	String
picked_at	String	String
ready_at	String	String
order_type	String	String
cover_count	Integer	Integer
is_take_away	String	Boolean
total_discount	String	Float
source	String	String
referral	String	String
tax_category	String	String
total_tax	Float	Float
table_no	Integer	Integer
user_name	String	String
driver_name	String	String

Customer Address Attributes:

Attributes	Version 3.1	Version 3.2
area	String	String
building	String	String
flat_no	String	String
street	String	String
landmark	String	String
city	String	String
country	String	String

Payment Type Attributes:

Attributes	Version 3.1	Version 3.2
payment_type	String	String
amount	String	Float
reference_code	String	String
tips	String	Float

Order Items Attributes:

Attributes	Version 3.1	Version 3.2
id	String	Integer
item_name	String	String
item_code	String	String
item_id	String	Integer
quantity	Float	Float
price	String	Float
tax_rate_name	String	String
tax_rate	String	Float
tax	String	Float
amount	String	Float
item_note	String	String
discount_name	String	String
discount_type	String	String
discount_rate	String	Float
discount_amount	String	Float
computed_cost	String	Float
modifiers	Array	Array

mandatory_modifiers	Array	Array
paid_modifiers	Array	Array
inventory_modifiers	Array	Array
combo_items	Array	Array
tags	String	Array

Discounts:

Attributes	Version 3.1	Version 3.2
discount_id	String	Integer
discount_name	String	String
discount_rate	String	Float
discount_type	String	String
discount_amount	String	Integer

Surcharges:

Attributes	Version 3.1	Version 3.2
surcharge_id	String	Integer
surcharge_name	String	String
surcharge_rate	String	Float

surcharge_type	String	String
surcharge_amount	String	Float
surcharge_tax_rate_name	String	String
surcharge_tax_rate	String	Float
surcharge_tax	String	Float
